

D08 - 8CM

Flow Accumulator D08 Series

Features

D08 series Flow Accumulators provide a power supply for Mass Flow Controllers or Mass Flow Meters and allow the user to set and display the flow for a controller or meter.

- High accuracy power supply
- CE mark compliant
- Ten years of production experience

Applications

Flow accumulator supply power supply, accumulation of flow, the display of instantaneous flow and accumulative flow for Mass Flow Meters and Mass Flow Controllers. It is convenient for constructing a network with external connections using a serial interface.

Input and Output

Power supply.....90 - 260 VAC
Power output.....400 mA@ ± 15 VDC
Input & Output signal.....0 - 5 VDC
Connections.....RS232 / RS485

Specifications

Display type.....3 ½ digital LED
Max power consumption.....15 W
Voltage reference.....+5V ± 0.1%, 5 mA
Minimum load impedance.....1 KOhm
Channel.....One
Displays.....Two
Dimensions (L x H x D).....72 × 72 × 168 mm
Weight.....0.4 Kg
