Distribution agreement with Semco Engineering

Montpellier, January 27th, 2005 : Qualiflow (ISIN code FR0004157592), a company specialising in the design, development, production and marketing of ultra-purity fluid flow-control and evaporation solutions, today announced the signature of the distribution contract with the Montpellier based company Semco Engineering (www.semco-engineering.com).

With such an agreement, Semco Engineering will now be distributing worldwide the RTP systems from Qualiflow (former Jipelec product line) on a non exclusive base. This significantly strenghten the existing sales network of QUALIFLOW.

This agreement is part of the marketing strategy of QUALIFLOW willing to strenghten the sales network as well as inscrease the quality of the technical support. Besides, the existing customers of QUALIFLOW could from now on benefit from the logistics support from Semco Engineering. To this end the technical staff within Semco Engineering will be trained on QUALIFLOW products.

Claude Jacquemin, President of QUALIFLOW, says : "considering the financial situation of our company, this agreement will nevertheless help us to improve the quality of the sales support and service to our customers. Improvement of the quality of the sales support means optimization of our presence worldwide using both our sales network. The quality of the service is also improved since our customers from now on will be able to fully benefit from the support delivered by Semco Engineering in terms of spare parts logistics and after sales technical support".

Yvon Pellegrin, CEO of Semco Engineering, says : "The RTP systems from QUALIFLOW are very performing. Selling such systems is a good opportunity to broaden our product range. Besides such agreement shows how reliable is both our sales service and technical support".

QUALIFLOW - www.QUALIFLOW.com - designs, develops, makes and sells components and systems that control the flow of ultra-high purity fluids, including valves, mass flow controllers (MFC) and gas systems. QUALIFLOW is determined to become the world leader in industrial precursor liquid evaporation solutions. The company's expertise is essential to manufacturing semiconductors, optical fibers and electronic components used to make many mass consumer products and systems. QUALIFLOW is listed on Euronext's NextEconomy segment.
